

## **What Can Collaboration With APICS Do?**

For Farmingdale State College, Synergy Resources, Infor Global Solutions, and our APICS NYC-LI Chapter, the collaboration efforts resulted in the creation of the “Intro to ERP” class. This class is taught by Prof. Jill O’Sullivan at Farmingdale State and once again this class proved successful.

We are very excited to announce that Farmingdale State College has made Managing Automation Media’s prestigious “2010 PM100” list and that Prof. O’Sullivan will be accepting this award in May 2010.

The great success of the Intro to ERP, BUS313 course got the attention of the panel of judges, and we are extremely proud and honored to receive this prestigious award confirming our successful business practices by an independent party.

The global Progressive Manufacturing Awards Program, now in its sixth year, recognizes best-in-class manufacturers from the US and abroad. We were recognized among 100 outstanding manufacturers that have been selected based on scope of mastery, business integration, and use of technology as demonstrated by each winner. Farmingdale State College is the only academic in the selected winners of this award. For more information on the PM100, please visit [www.managingautomation.com/awrds](http://www.managingautomation.com/awrds).

Receiving this award recognizes our commitment to innovation and the use of advanced technology and has provided validation to our communities that we are on the right track with our mission and business strategies.

This could not have been done without the initiative of APICS’ VP of Marketing Dennis Goldensohn, the industry inspiration, collaboration and support of Mr. Gene Caiola, President of Synergy Resources, Infor Global Solutions partnering, and Professor Jill O’Sullivan’s extreme efforts, she also serves as our Executive Vice President of this NYC-LI APICS Chapter.

Industry, Academia and APICS can make a difference for the future generation as proven by this award.

Thank you for your continued support and belief in what we do. We certainly could not have gotten here without these collaborations.

Congratulations to Prof Jill O’Sullivan, Dennis Goldensohn, and Gene Caiola for their collaborative efforts.
